

Phase Change Material

PRODUCT RANGE

SPECIFICATIONS:

GCCS Phase Change Material (PCM) gel bricks have been specially formulated as an integral component of the GCCS qualified cold chain temperature controlled shippers and pallets.

GCCS develop and manufacture safe and fully reusable phase change material (PCM) gel bricks in a large range of temperatures. Our chemical engineers continuously design and test using differential calorimeter testing DSC to ensure the latent heat and stability of all our PCMs.

Every one of our global sites manufactures and fills the PCM packs on-site to provide greater efficiencies and constant supply.

KEY FEATURES:

- Reusable/Durable
- Large temperature range
- Large variety of sizes
